

DEVICES HAVE BEEN CONTAMINATED!

The notification of contamination is mandatory to fill for any actual or possible contamination of rental equipment.

In order to protect our employees and the environment from hazards and contamination it is imperative that Dräger is informed about any possible contamination of rental devices that might have taken place. For this reason you are obligated to report any contamination.

Reference number: _____ Customer (Name): _____

Contact: _____ Phone No.: _____

Instruction for processing:

Please describe the type of contamination or check in the matrix, which type of risk has to be considered. Please fill in this form and attach it well visibly together with the return delivery note outside your return package. For further inquiries please contact your sales representative.

Information (enter text):			In an anticipated danger or contamination check accordingly and enclose the corresponding hazard sheet as well as the commercial regulation of the return.
